

Aztec: Police Tactical Vest

Designed to be worn in conjunction with the Inca high threat Police body armour vest, the Aztec offers the perfect solution for flexibility and functionality.

CQC's Aztec Police Tactical Vest has been designed in conjunction with UK Police to fit comfortably over the top of body armour, including the Inca Police High Threat Body Armour.

With its modern design, the Aztec Police Tactical Vest offers the wearer a comfortable and functional fit through the use of lightweight and breathable fabrics. The non-slip shoulder padding and rifle stop, as used in CQC's award-winning military body armour systems, has been designed to provide a more stable base when using a weapon.

MOLLE attachments have been included to allow for the individual to attach relevant pouches in the most comfortable positions. We are able to supply a variety of pouches for use with our range of Police Vests.

A simple yet effective cable loop design has been integrated into the vest to allow for cables to be threaded in an easy and stress-free manner.

The Aztec Police Tactical Vest is available in both male and female styles and in a number of different sizes.
