

## Inca: Police High Threat Body Armour

Designed to be worn in conjunction with our Police Tactical Vest, the high threat body armour offers an outstanding degree of personal protection.

CQC's Police High Threat Body Armour has been designed in conjunction with UK Police for high threat environments with both removable soft armour filler and hard armour plates.

With its modern design, the Inca offers the wearer a comfortable and functional fit through the use of lightweight and breathable fabrics.

The Inca can be supplied with protection to suit the user, whether ballistic, anti-stab, or both.

It is available in both male and female styles and in a number of different sizes.

Easily adjustable zipped shoulder strap with hook and loop for added security.
